

THE GREENDALE

THE GREENDALE

Perfectly thought-out floor plan for entertaining. The open-plan kitchen, dining and family area with the large alfresco attached brings the perfect opportunity for summer nights outside enjoying each other company. With the vast choice of facades, you'll be sure to bring a lot of personality to a cleverly crafted Greendale design. You can never go wrong with too much storage, and the Greendale home designs don't run short in this department. With walk-in robes and pantry, there will be loads of opportunity for storage. With majority of the bedrooms being on the right side of the home, you'll have a sense of privacy when guests come over.

The deep garage will definitely not disappoint! With the extra depth, you'll have loads of space for a workshop or shelves for more storage. The long horizontal hallway will bring the family closer together as it is being the main entrance to most rooms of the home. Cleverly planning all toilets/water closets (WC) to be detached from the main bathroom areas gives older families more freedom to continue their morning routine without having to wait for the shower while someone's in the toilet.
